

SOLA

DESIGN ANTTI KOTILAINEN

With its soft and sensitive forms, the Sola chair is a perfect fit for the Inspiring Office® by Martela -concept. The Sola chairs contribute to a visually diverse and inspiring office environment.

“The Sola chair series was designed for a specific demand,” says Antti Kotilainen, the designer of the chair. The chair’s design was based on its universal seat shell. The rounded shape of the seat is relaxed and yet dynamic. Forms do not need to be striking in order to be iconic and charismatic. The seat can be manufactured from a number of different materials, which all lend themselves naturally to the design.

“Sola chairs have a beautiful finish, an approachable form and various frame options, which means that they suit different types of spaces. Sola chairs look good on their own, and in large groups they look great in any space. In large spaces, the chair creates an interesting visual rhythm. Sola chairs are designed for the human scale,” says Antti Kotilainen.

Sola is available as a universal chair and a barstool, and it is the perfect partner for Alku tables, for example. There are several different upholstery options. The row connection and stackability features mean that the Sola chair is ideal for a variety of uses.

The Sola chairs is available as a universal chair with a four-leg or sled base, or a barstool that comes in two different heights.
